

# PaymentMate POS™ Equipment

Tempus Technologies™ and First Data™ now offer a complete point-of-service solution for all your business' needs—the *PaymentMate POS™*. With this efficient and cost-effective package you get the PaymentMate® check, credit card, and debit card processing software, installed and ready to use on a computer running Microsoft® Windows®. The PaymentMate POS also comes with the computer accessories to get you processing customers' payments right out of the box.

## The latest touch screen POS terminal

The PaymentMate POS is the newest fan-free, high performance POS terminal available from Posiflex. And it's now offered at a very attractive price point bundled with all the certified peripherals you need to run your merchant business efficiently. The PaymentMate POS is an industry standard product featuring a patented aluminum chassis for maximum heat dissipation, and a 1.5GHz CPU. The system is bundled with *Microsoft® Windows® Embedded for Point-Of-Service* and is available in a desktop configuration which easily converts to a wall mount solution. The PaymentMate POS is ideally suited to retailers and other businesses looking for value and an attractive price with no compromise on quality. Ask your First Data representative how the new PaymentMate POS can boost your sales and help grow your bottom line.

## The full POS computer accessories compliment

The PaymentMate POS has every POS accessory you need, bundled together for a cost-saving price. Besides the Posiflex® touch-screen terminal computer, you also get these essential accessories:

- Customer display pole
- Electronic cash drawer
- Metrologic® barcode scanner
- FD-10c® PIN pad with debit card reader
- Epson® thermal receipt printer

## The PaymentMate payment software

No POS solution is complete without payment software that is fast, easy to use, versatile and secure. The PaymentMate software that comes preinstalled with this package is all that and more! The PaymentMate payment software is fast, because it processes all transactions (including check payments) over your existing high-speed Internet connection. PaymentMate is simple to use with easy to understand prompts that take no time at all to learn. PaymentMate is versatile, allowing you to process nearly any kind of check, credit card, debit card or gift card. PaymentMate is secure and verified by Visa® as PCI (Payment Card Industry) compliant.
